Award Winning Tech Digital Recruitment

Introducing Searchability

Founded in 2012, Searchability set out to disrupt the traditional recruitment market and do things a little differently to help UK companies attract the very best tech talent.

As one of the **fastest growing** recruitment companies in the UK, Searchability was one of the first agencies to truly adopt social media as a platform to recruit, helping companies from start-ups to global brands to grow their tech teams. Over the years we have also developed a number of **innovative products** and solutions inhouse across other areas of the recruitment sector, allowing us to deliver the best possible service for our clients.

As well as helping clients with their immediate hiring needs, we have also launched a number of exciting sub-brands over the last few years, including our award-winning employer brand agency JobHoller, our scale-up subscription Scalability and our multi-sector recruitment agency Hirecracker!

We have also expanded into the USA with new headquarters in Austin, Texas, as well as Europe in Amsterdam, NL, and our most recent located in Sydney, Australia.

Our Core Value: *Be Sound*

"To be sound is a state of existence. It usually refers to someone who willingly does something positive for somebody else, asked or not, although usually unexpected. Alternatively, "sound" can be used as an adjective to describe a genuine, nice person."

Every decision that is made at Searchability and every action we take is driven by this value. All of our employees live to the value of "being sound", and as a result we are helping to change those "not so nice" perceptions people have of recruitment consultants, one sound action at a time!

"To be part of team Searchability you have to be sound. This value is a really big part of who we are, and whether it's a conscious thought or just an engrained moral compass that guides our behaviours, it is helping us become not only a fantastic company to work for but also a company that is delivering a five star service for our clients and candidates too." - **Martin Blythe, Founder**

Sponsoring Tranmere Rovers FC

Searchability are proud sponsors of Tranmere Rovers Men's Football Club! Working in Tech Recruitment, we also noticed the lack of women in the Tech industry, which is due to a number of reasons, and being an organisation that believes in equal opportunities, we took the chance to also sponsor the women's team, as we know this is another industry lacking female representation!

"When I discovered Tranmere Rovers Ladies were looking for a front of shirt sponsor for the 22/23 season I jumped at the chance! Not only have Searchability enjoyed a very successful relationship with the men's team as back of shirt sponsors for the past 5 years but we have also been championing local girls football teams over the last 3 years via our sister company Hirecracker - this felt like the perfect fit and one we are all very excited about!"

The surge of interest in ladies football across the Wirral & UK has been unprecedented in recent years which culminated in the fantastic achievement by our Lionesses this summer - what a fantastic advert for the ladies game and what superb inspiration for girls of all ages to take up the sport. I wish everyone at Tranmere Rovers Ladies every success for the forthcoming season and we're all very much looking forward to supporting and cheering you on here at The Searchability Group!" - Martin Blythe, Founder

Giving Back to The Community

We have held various fun events over the years to raise money for charities in the local community. We encourage our employees to take part in all events, giving them the opportunity to choose our charity if they have one that is close to their heart.

Holidays Abroad

Our recruitment teams work hard to hit their targets each month, so what better way to reward them with an all inclusive holiday abroad together? (on top of their commission of course!) But don't worry, we don't forget about those who aren't recruiters - we always try to include some of our operations team on these holidays, as they're a vital part of us being able to do what we do best!
